

Submission

Turn in the code for this homework by uploading your project to a public repository on GitHub. While you may discuss this homework assignment with other students, you must complete the work on your own.

To complete your submission, print the following sheet, fill out the spaces below, and submit it to the professor in class by the deadline. Failure to follow the instructions exactly will incur a **10%** penalty on the grade for this assignment.

CPSC 349 Homework Submission 4, due 9 Oct 2020		
Your name: Jazmin Esqueda		
Repository (print): https://github.com/jazesq / coffeerun2.0		
Verify each of the following items and place a checkmark in the correct column. Each item incorrectly marked will incur a 5% penalty on the grade for this assignment		
Finished	Not finished	
		The CoffeeRun page can be viewed at http://localhost:3000 when browser-sync is running
		Coffee Order and Email fields are required for submission
		scripts/remotedatastore.js module has been added
		Deployd installed and running and coffeeorders resource created
		SERVER_URL in main.js points to Deployd
		Changes to the checklist are reflected in the coffeeorders collection when viewed through the Deployd dashboard
		Orders stored in Deployd persist after refreshing the page in the browser
		An .eslintrc.js file is present in the root of the repository
		All issues detected by linter-eslint have been fixed
		No error messages appear in the browser's DevTools console
		HTML, CSS, and JavaScript code reformatted with the atom-beautify plugin
		Project directory pushed to new GitHub repository listed above
		Project directory has been pushed using a GitHub client, not by manually dragging-and-dropping files onto the GitHub web page.
Comments: Was unsure what to submit.		

Fill out and print this page, and submit it on the day this project is due.
